

Construction Update

September 10, 2025

Notice of Temporary Driveway Closure – Whizin Business Center South Driveway on Agoura Road

Temporary Driveway Closure Agoura Road - South Driveway
September 22-23, 2025
6:00 AM to 4:00 PM
Reopens after 4PM for public use*

Please be advised that the south driveway of the Whizin Business Center on Agoura Road will be temporarily closed due to construction work. A full closure will take place for approximately 2-days from 6:00 AM to 4:00 PM, during which time the driveway will be inaccessible to all traffic. After 4:00 PM each day, the driveway will reopen for public use.

The south driveway will be intermittently blocked for approximately 10-days after the initial 2-day closure to accommodate the movement of girder delivery trucks. Drivers and bicyclists please be prepared to stop for flaggers to ensure everyone's safety.

We encourage the use of alternate access routes into the Whizin Center via Roadside Dr. (north driveway). We appreciate your patience and understanding as we complete this necessary work and apologize for any inconvenience this may cause to local businesses, residents, and shoppers.

Every effort will be made to minimize disruptions and complete the work as efficiently as possible. Your patience and cooperation are appreciated as we work to improve our community!

We realize it's cool to see but for everyone's safety, please stay clear of the restricted area. We will post photos and videos onto the project website for all to see!

Map for Alternate Route. Please enter the Whizin Market Square from the north driveway, located next to 28914 Roadside Dr.

WHAT TO EXPECT, SHARE THE ROAD

Temporary Driveway Closure: The south driveway on Agoura Rd. will be closed for about 2-days from 6AM to 4PM. The parking lot will be accessible via the Roadside Dr. driveway. Intermittent closures to follow for approximately 2-weeks.

Alternate Access Routes: Consider alternate Whizin Center access routes on Roadside Dr. and Cornell Rd.

Large Equipment: Large equipment such as cranes and flatbed trucks will be on-site to lift and place concrete girders, requiring space for positioning.

Please be aware that due to the dynamic nature of construction and potential weather delays, certain work activities may take longer than initially anticipated.

Stay Up To Date
